

The Lord G-d took the man and placed him in the garden of E-den to till it and to tend it.

Genesis 2:15

Information on how to reduce our energy use abounds – and, for many, is overwhelming. *What to do first?*

Task of the Month helps us take the most important steps.

Each month congregations focus on one simple but high-impact action and help their members get it done.

By the end of the year, participants' utility bills will have dropped and they will know they are helping to "till and tend" G-d's creation.

Look at my works! See how beautiful they are – how excellent! For your sake I created them all. See to it that you do not spoil and destroy My works; for if you do, there will be no one else to repair it.

Ecclesiastes Rabbah, 7:13

The *Task of the Month Toolkit* includes:

- **Posters**
each month
- **Information sheets**
how to perform each task and where to get more information
- **Brochures**
- **Sign up sheets**
request and offer help
- **Organizer tips**
engage your community

If not now, when?
Task of the Month
for Synagogues

Reducing Household Energy Use
One Task at a Time

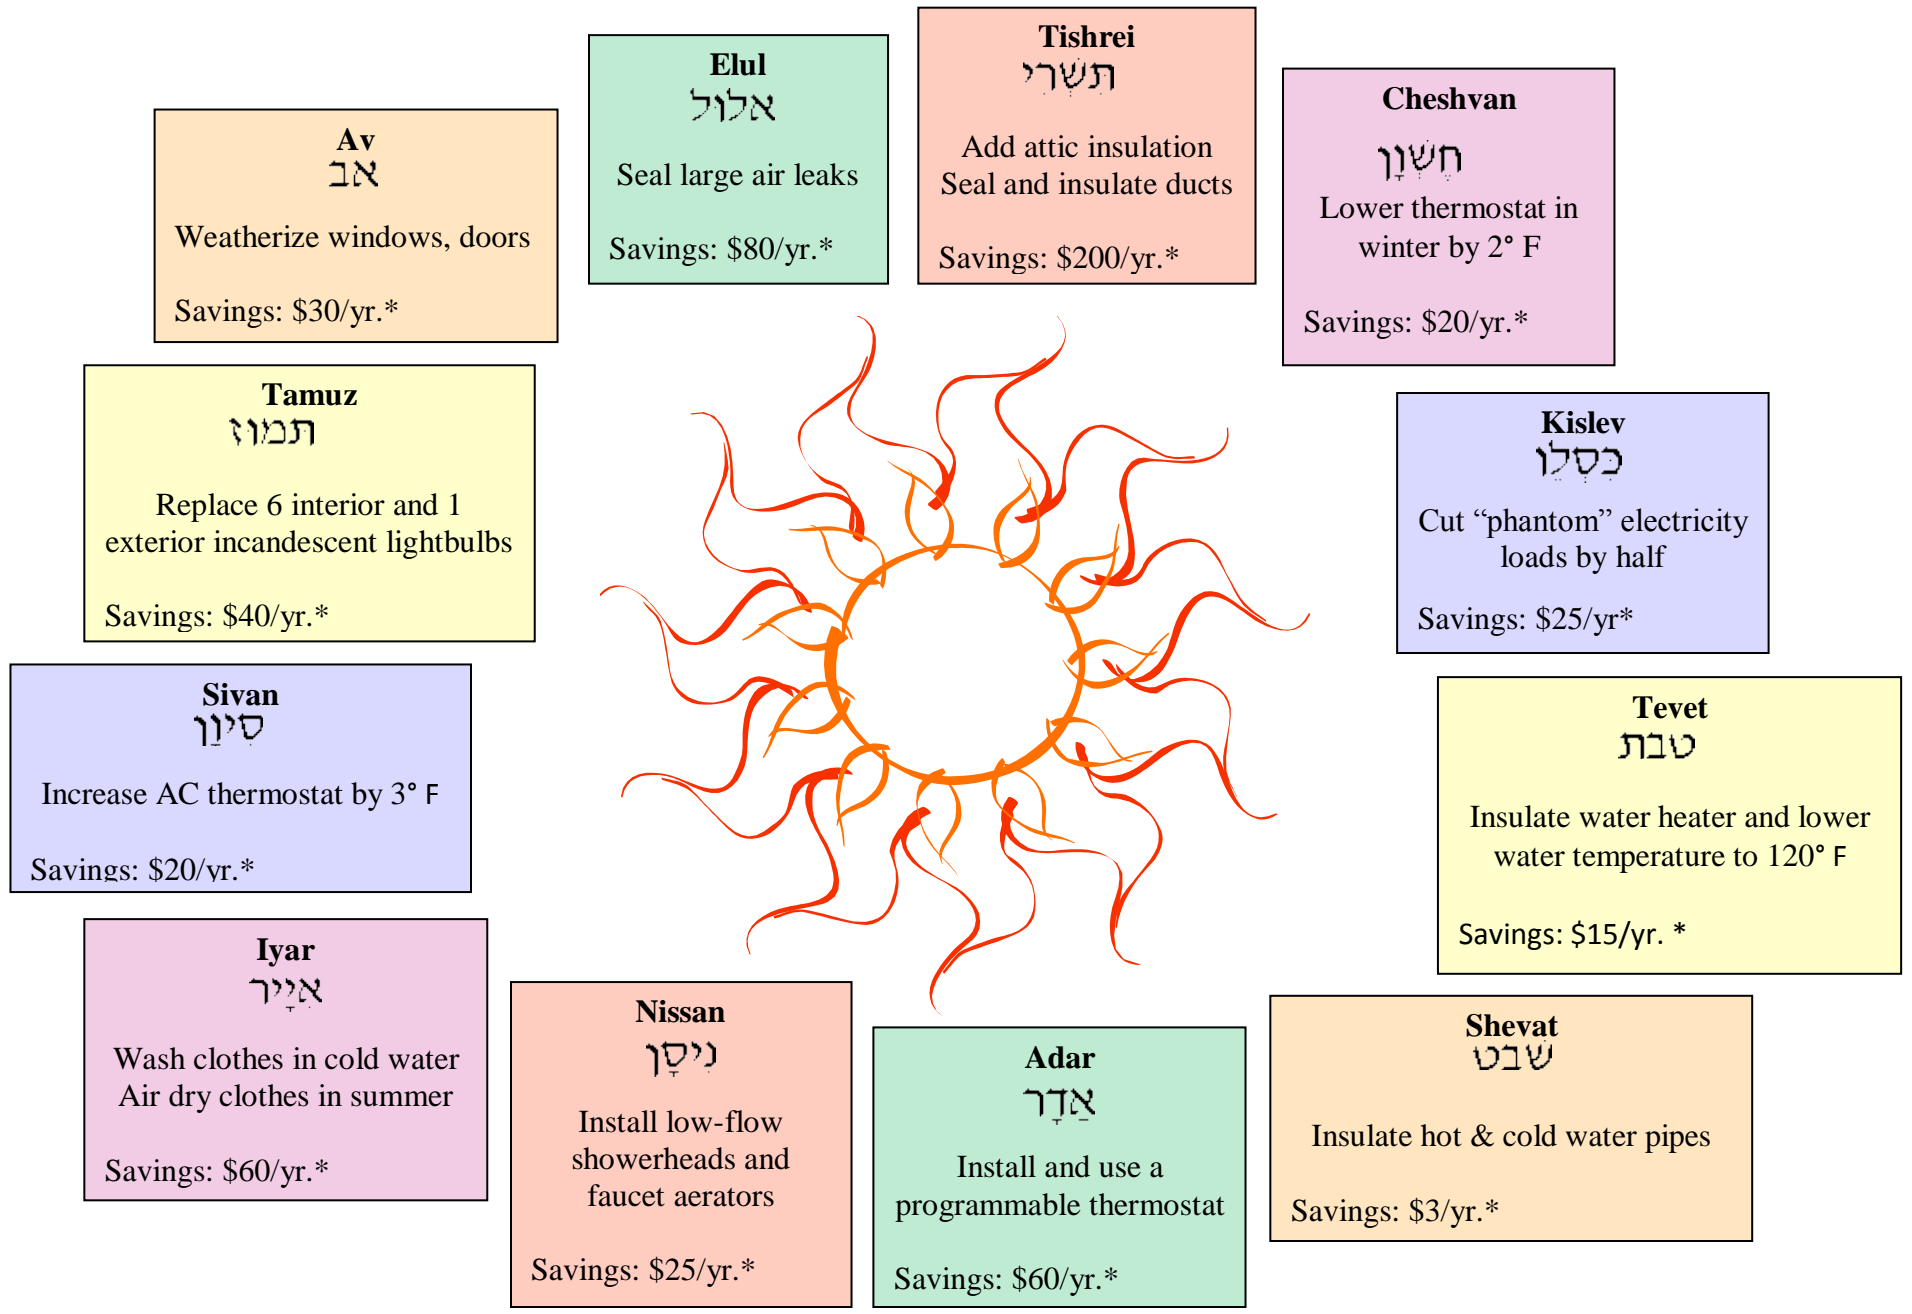

A program component of
Hoosier Jews Till & Tend the Earth:
A Statewide Energy Initiative

The Earth is
the Lord's
and the fullness
thereof.

Psalm 24
